Nez Perce Tribe Water Resources Division Solid Waste and Recycling Program

Contact: Jon Van Woerkom . (208) 791-3965 Linda Nemeth . lindan@nezperce.org

“Talkin’ Trash”

In 2017, the Water Resources Division Solid Waste & Recycling Program diverted 44 tons of material from the trash through recycling. However, the program also hauled 140 tons of waste to the landfill. That represents recycling of about 24% - please help us increase it this year!

Introducing the Water Resources Division Solid Waste & Recycling Team: (left to right) Errol Robinson, Melvin (Hoppy) Rickman, and Jon Van Woerkom. We take pride in our recycling program because we care about future generations and our homeland.

Honor our mother earth by being a part of the solution, not the pollution.

YES, WE  **!**

Betcha can't guess...

Guess the weight of aluminum cans in this recycling truck and trailer load and win a prize! Submit entry by April 25, 2018

Please click the link to enter your guess to win a small prize. The winner will be announced on Earth Day at our booth (April 26, Nimiipuu Health and Community Garden). <https://www.surveymonkey.com/r/CX5FFJY>
