Exciting end to 2020 ! — in December we loaded and sent off our second shipment of cardboard to the mill in Oregon! Even more than our first load— 44,714 lbs. of cardboard!! Thank you all for your recycling efforts! That is 22 tons that did not go to the landfill and a savings of \$1,094 in tipping fees! This is what we have been working toward, regular shipments of recyclable materials to markets to be made into new products.

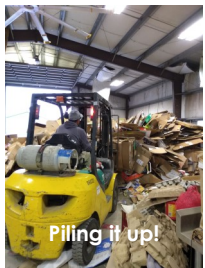

Distribution Cardboard

Loaded up & headed to shop

So much cardboard! No room at the shop!

Piling it up!

Putting wire on a new bale!

Piles and piles of bales!

First layer of bales loaded!

Way to go, Nez Perce Tribe!

Thanks to Tribal Departments and Community Members - 47 bales of cardboard off to the mill!

## “Talkin’ Trash”

Socially Distanced Recycling

Thank you all for doing your part in taking COVID seriously—wearing masks and social distancing at work and at our recycling events. We appreciate your efforts to keep everyone safe!
