Nez Perce Tribe Water Resources Division Solid Waste and Recycling Program

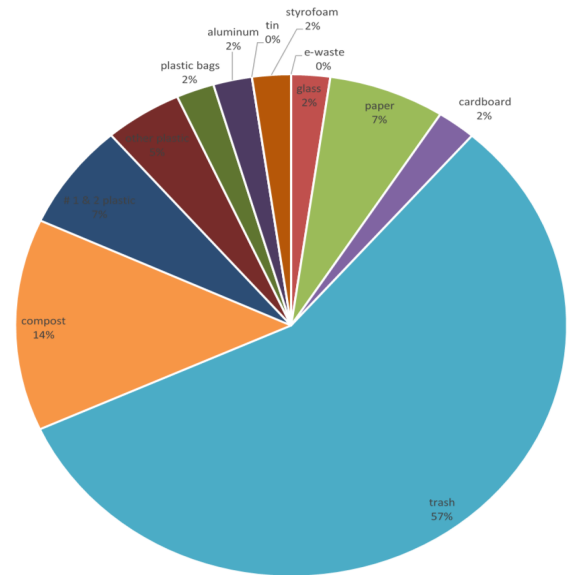

Contact: Jon Van Woerkom . (208) 791-3965 Linda Nemeth . lindan@nezperce.org

Thanks to grant money from the Water Resources Division, the Recycling Facility now has two new ceiling fans, yes, the famous BigAss Fans® for industrial facilities! Now the Recycling Team should be able to work more comfortably! No more 108 degree days inside the building!!

“Talkin’ Trash”

Tribal Government Waste Audit, August 2018

Good News! 57% of the trash that was in the trash bin was actual trash! However, that means 43% was something that could be recycled (29%) or composted (14%). Help us improve the Tribal offices' recycling rate!

Programs help with Recycling! →

We encourage & celebrate other programs recycling as shown here — Maintenance Program's own Guy Broncheau helped our recycling team collect boxes from the Lapwai Back to School event August 16th!

On our way to ZERO WASTE Thank you all for your help!!
